

DokuWiki

I was born here. I lived here:

DokuWiki is a standards compliant, simple to use **W**iki, mainly aimed at creating documentation of any kind. It is targeted at developer teams, workgroups and small companies. It has a simple but powerful **F**ormatting **S**yntax which makes sure the datafiles remain readable outside the Wiki and eases the creation of structured texts. All data is stored in plain text files - no database is required.

Read the  [DokuWiki Manual](#) to unleash the full power of DokuWiki.
